Eilat/Ilan & Assaf Ramon International Airport – Declaration and General Information

The national aviation infrastructure of the state of Israel is currently in advanced stage of the construction of a new international airport, by the Israel Airport Authority, in the southern part of the state, near the city of Eilat.

The new airport is named Eilat/Ilan & Assaf Ramon International Airport and it is scheduled to open in the beginning of 2017. After a short period of operational evaluation, Eilat/Ilan & Assaf Ramon International Airport will replace an existing airport, Eilat International Airport, which is operating today from within the city of Eilat.
